

Features

Power 31.5 MW	Voltage 13.8kV	Footprint 98' x 26'	Major Overhaul 50,000 OPH	Low Emissions 25ppm NOx (with water injection)
-------------------------	--------------------------	-------------------------------	-------------------------------------	---

POWERTRAIN

- Double Shaft Gas Turbine
- Synchronous Generator

AUXILIARY SYSTEMS

- Split Lube Oil System
- Multi-Stage Air Intake (Anti-icing options)
- Hydraulic Starting System
- CO2 Fire Suppression & Control System
- Positive Pressure Enclosure Ventilation
- Integrated Control Room (Remote Monitoring)
- Exhaust System (Internal Collector & External Silencer)
- Integrated Power Delivery (Switchgear, Breaker, & Transformer)
- Acoustical Enclosure (85 dBA @ 3.3 ft)

CONFIGURATIONS

- 50|60 Hz
- Primary Power | Island Mode
- Dual Fuel Cabale
- NOx Control (Water Injection System)

Industry-Leading Power Density in a Modular Stationary Package

**Maximum
Power Density**

**Modular
Deployment**

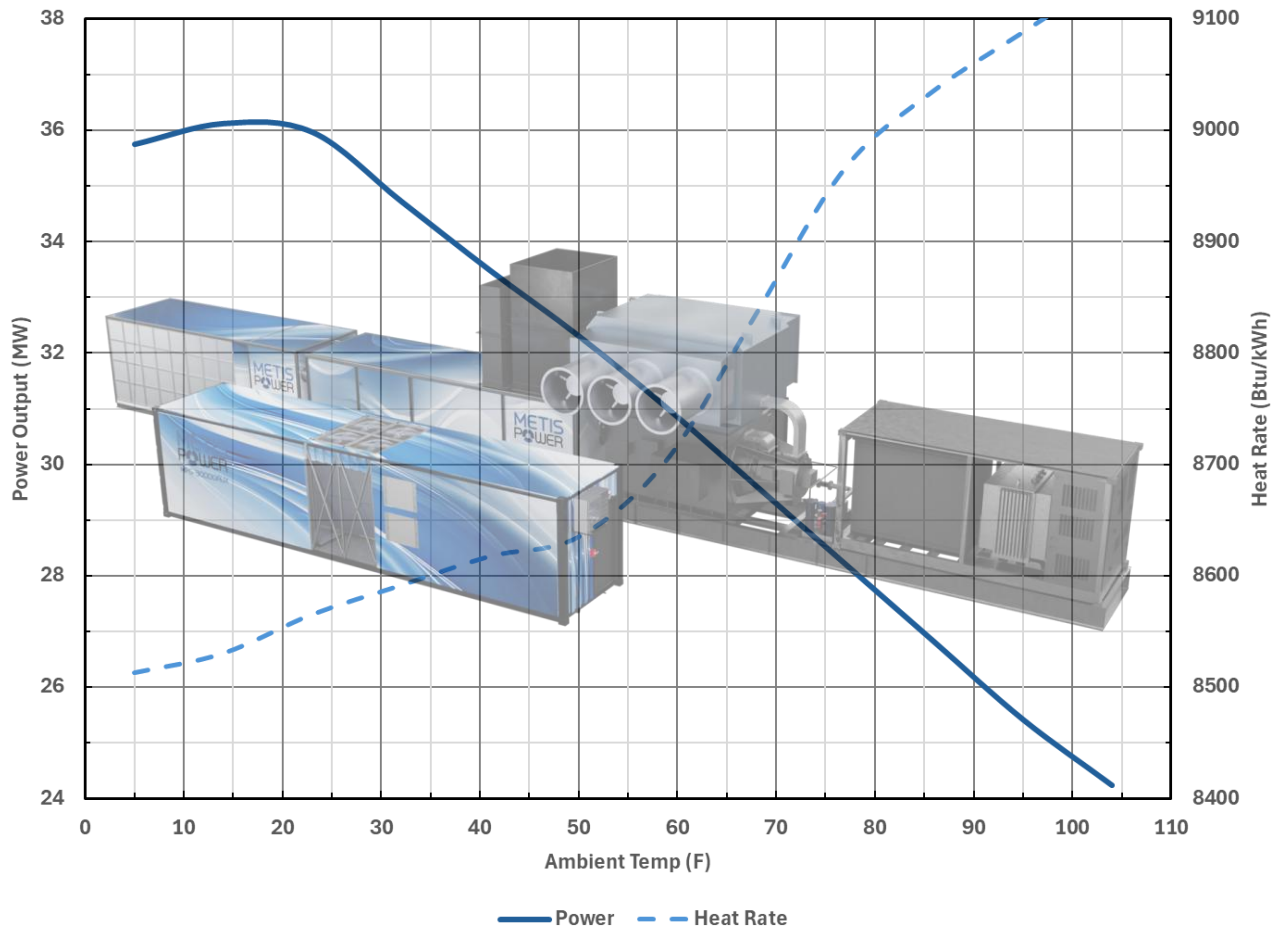

**Grid
Independence**

**Low
Emissions**
